List of Perfumes For The Virtue Innate Group

April 27, 2025

A list of perfumes for the Virtue innate group is created by the authors of World Typology website. The purpose of this page is to show the relation of different perfumes with different innate groups, types and temperaments.

This page is a continuation of the page *"A Typological Classification Of Perfumes For Innate Types"*.

Historically, people have come up with different ways to preserve natural scents and use them for their pleasure. This is how perfumes came to be. The word perfume implies a perfume product with a higher percentage of essential oils than e.g. toilet water or cologne.

Of course, in addition to essential oils, perfumes may contain synthetic components, which are designed to add a particular flavor or replace a fragrance that is difficult to extract from nature. But the interesting thing is that many perfumes create a certain lasting image and atmosphere. This is what prompted the creation of a classification and typology of perfumes by the authors of this website.

Before proceeding to the study, it should be noted that the authors of this classification are in no way connected with the manufacturers of these perfumes and do not sell their perfumes. Both perfumes, eau de toilette and colognes can be found on the list. The classification itself is not a recommendation for you, as all perfumes available for sale in the market are created for all people.

The basis of perfume classification for the innate Virtue group

Fragrances are classified by World Typology authors subjectively, according to **innate type of thinking** and also selected according to **innate temperament** (sanguine, choleric, phlegmatic and melancholic) defined by us and **theoretical types age** (young, middle, old). What gender the perfume and scents are for – check the manufacturer's website.

Slide the image of the Virtue left to right.

"Enjoyment in life can only come from bringing creative ideas to the township around you."

The Motto of a Virtue group.

Search fragrance by brand or name (if you know it)

Search
